

[e1] School uniforms  
should not be worn  
in our schools.

[e2] They do offer the benefit that the competition over brand-name clothes and the discrimination of the socially weak are prevented.

[e3] Nevertheless  
hardly anyone wishes  
to dress themselves  
or their children in  
a standard uniform.

[e4] Plus such uniforms also stand for ideological conformity and for the suppression of individual self-development.
