

[e1] Alternative treatments should be subsidized in the same way as conventional treatments,

[e2] since both methods can lead to the prevention, mitigation or cure of an illness.

[e3] Besides it should be in the interest of the health insurers to recognize alternative medicine as treatment,

[e4] since there is a chance of recovery.

[e5] It doesn't matter after all that those who administer the treatment don't have 'doctor status'.
